

ARCHITECTURAL GLAZING PRODUCTS

ABOUT US

Covering the 32 Counties, First glass is one of Irelands leading glass processors. Processing glass from 4mm - 19mm and offering a competitive service to a wide variety of customers. With an experienced team of staff, we are able to help in all aspects of your project from Safety, Aesthetics, Technical Advice and Security. Carrying a wide variety of stock and using the most up to date technology, allows us to be a one stop shop for the glazing Industry. With sustained investment and development we have continued to develop the range of product we supply, all meeting current EU regulations.

PARTITIONS

Working with a number of specialist fit out companies, we have become a key supplier of glass partitions ranging from 6mm -12mm in both laminate and toughened. Glass Partitions have become increasingly popular in recent years offering both a comfortable and contemporary "Want to work" environment. With the advances in glass technology we are able to offer solutions for noise, heat gain and design whilst meeting European safety regulations

FRAMELESS DOORS

Frameless Doors are an easy way to transform a dark room in to a light modern area. With a wide range of Hardware available and sandblast designs, we are able to manufacture doors and partitions to your exact specification.

CANOPIES

Supplied in both Single Toughened and Toughened Laminate, we are able to offer you a solution to all of your Glass Canopy requirements including Sandblast designs and Coloured or Opal interlayers.

“

WITH AN EXPERIENCED TEAM OF STAFF, WE ARE ABLE TO HELP IN ALL ASPECTS OF YOUR PROJECT...

”

BALUSTRADES & INFILL PANELS

From domestic infill panels to Structural, free standing Balustrades, we manufacture all products in house with our own CNC and polishing machines, while tempering them on our own Toughening plant. Common thicknesses used range from 10-19mm as well as Toughened Laminates.

GLASS FLOORS & STAIR TREADS

Working to an approved specification, Interlayer. Multiple layers of glass are bonded with our EVA Interlayer. Sand Blasted finishes are available for both design and safety.

TOUGHENED LAMINATED

Using our "In House" EVA laminating line we are able to combine the strength of Toughened Glass with the safety of a Laminate for many applications from Floors to Balustrades. Glass Panels are constructed using 2 or more panes bonded by an EVA interlayer which can be Clear, Opal or incorporate a Coloured Vinyl to suit your design.
